## **FSM 480**

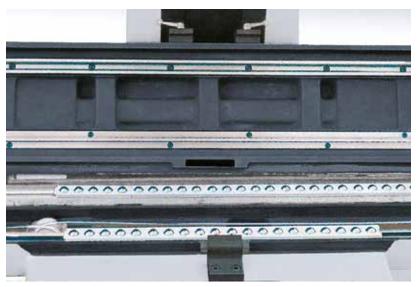

## Compact manual surface grinder for workshops

- spindle resists high loads; mounted in pre-loaded angular deep-groove ball bearings ensures low-vibration operation, high accuracy, increased lifetime and low maintenance
- completely leak-proof and balanced spindle motor with high load capacity
- solid, vibration-absorbing construction
- V- and flat guides in X and Y directions for consistently high accuracy
- longitudinal table movement over linear ball guide; linear roller guideway
- adjustable hand wheel scales for vertical and transverse adjustments allows zeroing at any position
- · central lubrication
- grinding parallelism 0,005 mm / 300 mm

Permanent magnetic clamping plates with micro pole pitch - ideal for high-precision grinding work

Linear ball guide for guide for smooth table travel

Angle-adjustable grinding vise (standard equipment)

Main spindle drive with advanced precision bearing

PSG 50 is shown (optional)

| Specifications                                  |       | FSM 480   |
|---|-------|-----------|
| Working area                                    |       |           |
| Table dimensions                                | mm    | 210x450   |
