

- Cutting capacity up to 0.3 in
- Automatic kerf adjustment
- Large work table

- The KAM 250 fixed-angle notcher features a compact design and long cutting length
- The powerful hydraulic drive and heavy, rigid construction allow machining of up to 0.3 in thick plates
- Automatic kerf adjustment simplifies machining operations and minimizes down-times

Adjustable clamping lever simplifies safe handling of stops

The machine provides a user-friendly design and reliable functionality

- The large work table features a 90° slot that runs parallel to the cut line, which can accommodate two indexable angular stops
- Easy to read scale bars allow precise workpiece alignment underneath the cutter head
- Automatic hold-downs hold the workpiece close to the knife during the cutting process
- Notched material is ejected to the side
- Easy and comfortable operation via foot switch

## Specifications

## KAM 250

Working Area	
Cutting angle	deg 90
Max cut length	in 10
Max cut thickness	in 0.3
Strokes per minute	positions 24
Table size	in 32x30
Motor rating	Hp 5.4
Operating pressure	psi 1,740
Measures and Weights	
Oil tank capacity	gal 9.24
Overall dimensions (length x width x height)	in 39.8x33.5x55.1
Weight	lbs 1,386
Part No.	130610

## Standard Equipment

foot pedal with e-stop switch, angle stop, operator manual
